

PBIS TIER II IMPLEMENTATION TEAM TRAINING

Come join your Region 8 California PBIS representatives for 4.5 days of PBIS Tier II Implementation Team Training at Kern County Superintendent of Schools (KCSOS). This training is accompanied with the essential components necessary to scale up your existing Tier I structures to meet the needs of students needing additional support. During this training teams will be able to:

- Align a request for assistance form into Tier II services by identifying data decision rules
- Match interventions to student need and fidelity to Check In Check Out (CICO)
- Follow a Tier II action plan that is directly aligned with the Tiered Fidelity Inventory (TFI)

Upon registration, our team will guide each site through exploration and readiness documents which will assure team members are identified and registered for the appropriate training.

*Prerequisite: For Proper scaling up, we strongly encourage a TFI score of 70% or higher for Tier I.

For more information, please contact:
