What to expect?

This comprehensive 2-day training is tailored for School Social Workers, Counselors, and Psychologists, providing them with the requisite knowledge and skills to seamlessly integrate solution-focused techniques into various facets of school interactions. Addressing short interactions, counseling sessions, IEP meetings, and other settings, participants will acquire evidence-based and time-effective strategies. The training emphasizes empowering students to identify inherent resources and cultivate enduring solutions, fostering a positive impact on their overall well-being.
