

PLC AT WORK

This three-day professional learning event builds on the PLC Foundations series presented by Dr. Luis Cruz during the 2022-2023 and 2023-2024 school years. We encourage you and your team to join us for this opportunity to enhance your PLC skills by collaborating with fellow educators in Kern County. The series will focus on fostering high levels of learning through the identification and unwrapping of essential standards, the setting of learning targets, and the development of common formative assessments.

Year 2 Cohort

Kim Bailey

Kim Bailey works with educators nationwide to build effective leadership of PLCs. She is passionate about empowering teams with practical, collaborative strategies for aligning instruction, assessment, and interventions with the standards so that all students receive high-quality instruction.

Event Details
