

IMPACT OF LEGISLATION ON CHILD WELFARE & ATTENDANCE AND STUDENT SERVICES

February 5, 2025
8:30am- 3:30pm

Each year, new legislation impacts the daily operations and systems in our public schools, resulting in the amendment of existing, and development of new, policies and procedures. Subsequently, such changes must be reflected in documents that local educational agencies (LEA) and schools are obligated to produce and/or post – whether physically on the school campus or on the LEA/school website. As the majority of these laws go into effect in the middle of the school year, county, district, charter, and school site leaders are faced with many challenges in keeping track and complying with these laws.

This workshop will highlight new laws affecting the areas supported by student services/child welfare and attendance (CWA) staff.

Presented by
Student Support Services
Solutions, Inc.

Who Should Attend?

District and/or School Administrators, School Psychologists, Counselors, Child Welfare and Attendance Supervisors, Safety Officers, School Social Workers and Front Office Staff.

Cost:
