

UDL & MATH WORKSHOP

Free!

Bridging Universal Design for Learning with Mathematics instruction

This workshop equips educators with tools to design inclusive, accessible, and engaging math instruction using Universal Design for Learning (UDL). Participants will explore strategies for applying UDL principles to mathematical reasoning, problem-solving, and discourse, with an emphasis on flexible scaffolding, multiple means of representation, and student agency in the learning process.

Thursday

September 25, 2025

Time

08.30 AM - 2:30 PM

City Center Room #1D
